INDEPENDENT AUDITOR'S REPORT

Board of Directors
Upper Colorado River Authority
512 Orient Street
San Angelo, Texas 76903

We have audited the accompanying financial statements of the governmental activities and each major fund of the Upper Colorado River Authority as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Upper Colorado River Authority, as of August 31, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5 through 9 and page 23 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, the Texas Supplemental Information on pages 24 through 29 are not a required part of the basic financial statements but are required by TCEQ, Texas Commission on Environmental Quality. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Non-required Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Upper Colorado River Authority's basic financial statements. The supplemental information on pages 31 through 33 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

San Angelo, Texas

UPPER COLORADO RIVER AUTHORITY
Management Discussion and Analysis

As management of the Upper Colorado River Authority, we offer readers this narrative overview and analysis of the financial activities of the Upper Colorado River Authority for the fiscal year ended August 31, 2016. The Management's Discussion & Analysis (MD&A) should be read in conjunction with the accompanying basic financial statements and the accompanying notes to those financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of three components: 1) Statement of Net Position and Governmental Funds Balance Sheet, 2) Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Net Position, and 3) Notes to the Basic Financial Statements. Also included are Required Supplemental Schedules and Texas Supplemental Information. The government-wide and fund financial statements are combined in these financial statements for single-program government presentation. Authorities engaged in a single governmental program may combine their fund financial statements with their government-wide statements by using a columnar format that reconciles individual line items of fund financial data to the government-wide data in a separate column.

Government-Wide Financial Information

The government-wide portion of the financial statements is designed to provide readers with a broad overview of the Authority's finances in a manner similar to private sector business. They present the financial picture of the Authority from an economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the Authority as well as all liabilities.

The Statement of Net Position presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net position. Increases or decreases in net position contrasted with budgetary decisions should serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The Statement of Activities presents information showing how net position changed during the most recent fiscal year using the full accrual basis of accounting. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Fund Financial Information

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Authority has a general fund.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows

and outflows of spendable resources, as well as balances on spendable resources available at the end of the fiscal year.

Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Authority maintains one governmental fund known as the General Fund, which accounts for the Authority's operating activity and grant revenue and expenditures.

The Authority adopts an annual appropriated budget as a management control and for compliance with TCEQ requirements. The Board approves the budget before each new fiscal year.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the combined government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental schedules concerning the original and amended budgetary schedules. This report also presents Texas supplemental information concerning information requested by the TCEQ, Texas Commission on Environmental Quality.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Of the Authority's total assets of \$4,248,025, the largest components are: (1) cash and investments of \$3,898,623 or 92%, (2) accounts/current notes receivable and accrued revenues of \$113,037 or 3%, and (3) long-term notes receivable of \$224,343 or 5%. Capital assets are non-liquid assets and cannot be utilized to satisfy Authority obligations.

About 33% or \$1,380,078 of the Authority's net position represents contributed capital from the state of Texas. Contributed capital is comprised of remissions from the State of Texas from State ad valorem taxes which were collected for the State's general revenue purposes from property in the counties of Coke and Tom Green during the period September 1944 through December 1963.

The Authority invested this money into certificate of deposits, which now total \$3,480,191. \$8,069 of the net position is funds invested in fixed assets, net of related debt.

Governmental activities decreased the Authority's net position by \$142,698 to result in an ending net position of \$4,233,667.

The Authority has no significant liabilities or debt. Current liabilities consist of operating and administrative expenses incurred during the fiscal year and paid after. Non-current liabilities included accrued compensated absences for eligible employees.

Condensed Statement of Net Position
As of August 31,

	<u>2016</u>	<u>2015</u>
ASSETS		
Current Assets	\$ 4,015,613	\$ 4,081,203
Non-Current Assets	224,343	316,501
Capital Assets, Net of Depreciation	<u>8,069</u>	<u>11,263</u>
Total Assets	<u>4,248,025</u>	<u>4,408,967</u>
LIABILITIES		
Current Liabilities	7,604	24,307
Non-Current Liabilities	<u>6,754</u>	<u>8,294</u>
Total Liabilities	<u>14,358</u>	<u>32,602</u>
NET POSITION		
Invested in Fixed Assets, Net of Related Debt	8,069	11,263
Unrestricted Net Position	<u>4,225,598</u>	<u>4,365,102</u>
Total Net Position	<u>\$ 4,233,667</u>	<u>\$ 4,376,365</u>

During the current year, the Authority was involved in fewer projects than the prior year; therefore, revenues are \$128,219 lower than the prior year. Because project revenues are generally expenditure driven, the Authorities expenditures before extraordinary items are lower as well.

Revenues for the Upper Colorado River Authority total \$488,903. Of that total, \$300,711 or 62% represents grant revenue and special project revenue. \$22,088 or 5% represents interest income from notes receivable and temporary investments. The remaining 33% received was from water sales of \$165,116 and other miscellaneous revenues of \$988.

Revenues from special projects and grants decreased considerably (30%). This decrease can be attributed to the ending of three projects in the prior years. Revenues from water sales increased by 75,354 or 5%.

Expenses for the Upper Colorado River Authority total \$631,601. Of that total, \$284,487 or 45% represents salaries, benefits, allowances, and payroll taxes, \$107,993 or 17% represents raw water costs, \$99,527 or 16% represents federal, state, or local special project and grant expenses, and \$83,889 or 13% represents operating expenses, including, utilities, rent, directors' fees, and insurance (including indirect costs reimbursed by federal, state, or local agencies). The UCRA underwent a Sunset Review this past year that cost \$55,705, or 9% of total expenses. This review was mandated by the State Legislature.

Expenses as a whole decreased for the Authority by \$26,680 or 4% when considering the extraordinary expense, or by \$82,385 or 13% otherwise. Payroll expenses decreased by \$7,863

or 3%. Special project and grant expenses decreased by \$53,708 or 35% due to the ending of three projects in the prior year. Raw water costs decreased by \$3,404 or 3%. Professional fees, consultant fees, and contract labor decrease by \$17,523 or 45% due to less legal fees, consultant costs, and contract labor needs. Utilities decrease by \$581 or 7%. All other general expenses increased by a total of \$694.

Condensed Statement of Activities
As of August 31,

	<u>2016</u>	<u>2015</u>
REVENUES		
Special Project and Grant Revenue	\$ 300,711	\$ 430,213

Beginning of the Year	<u>4,376,365</u>	<u>4,417,524</u>
End of the Year	<u>\$ 4,233,667</u>	<u>\$ 4,376,365</u>

The supplemental schedules on pages 23 through 29 are required by TCEQ, and they are presented in a format specified by TCEQ. The Comparative Schedule of Revenues and Expenditures - General Fund - Five Years Ended represents General Fund Revenues and Expenditures only and does not adequately reflect the true position of the Authority for the year ended August 31, 2016.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Authority's Board of Directors adopts a budget no later than August 31 in accordance with applicable state laws. The budget may be amended from time to time by authorization from the Board of Directors. The budget will be a true reflection of the Authority's anticipated annual expenditures and revenues. Each year during the annual budget review and adoption process, the Directors will consider current, intermediate and long range goals for the organization based on anticipated revenues and expenditures. In the general fund, actual revenues reported were 100.5% of the amended budget and actual expenditures were 102.01% of the amended budget.

The budgets, both original and amended, are presented in the Required Supplemental Information.

CONTACTING THE AUTHORITY'S FINANCIAL MANGEMENT

This financial report is designed to provide users a general overview of the Authority's finances and to show the Authority's accountability for the money it receives. If you have questions about this report or need additional information, contact the Authority at 512 Orient, San Angelo, Texas or phone at 325-655-0565.

UPPER COLORADO RIVER AUTHORITY
Notes to the Financial Statements
August 31, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Upper Colorado River Authority (Authority), as reflected in the accompanying financial statements, conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Accounting principles generally accepted in the United States of America for local governments are those promulgated by the Governmental Accounting Standards Board (GASB) in Governmental Accounting and Financial Reporting Standards. The most significant accounting and reporting policies of the Authority are described in the following notes to the financial statements.

Reporting Entity

In evaluating how to define the government, for financial reporting purposes, management has used the following criteria. The financial statements of the Authority include the organizations that are controlled by or are dependent on the Authority. Control or dependency is determined on the basis of budget adoption, funding, and appointment of the respective governing board and oversight. Currently, there are no organizations controlled by or dependent on the Authority.

The Authority, for financial statement purposes, includes all of the funds relevant to the operations of the Upper Colorado River Authority. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from the Upper Colorado River Authority.

The Upper Colorado River Authority was created, organized and exists under and pursuant to provisions of Chapter 126 of the Laws of the State of Texas, 44th Legislature, Regular Session, approved May 1, 1935, as amended. The Authority is designated as a conservation and water reclamation district for Tom Green and Coke Counties. The Authority has a nine-member board of directors appointed by the Governor of the State of Texas to serve six-year terms, with three members' terms expiring every two years. Currently, there are nine active members. Appointment of the board members is subject to confirmation by the State Senate. Board membership consists of three citizens from each of the two counties within the district and three members from contiguous counties or counties within twenty-five miles of the Authority's boundaries. The Upper Colorado River Authority has contracted with the Lower Colorado River Authority to provide certain services for the implementation of the Texas Clean Rivers Act for the middle portion of the Colorado River basin and watershed.

Government-wide and Fund Financial Statements

The government-wide and fund financial statements include the statement of net position and governmental funds balance sheet and the statement of activities and governmental funds revenues, expenditures, and changes in net position in a single-district format. This format allows the government-wide and fund-based activity to be presented on one statement in a

UPPER COLORADO RIVER AUTHORITY
Notes to the Financial Statements
August 31, 2016

columnar format with an adjustments column to reconcile the two presentations. The government-wide presentation reports information on all of the activities of the Authority.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The *government-wide financial statements* are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

The *governmental fund level financial statements* are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Except for grants, measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Grants policy includes recognition of all revenues where grant eligibility requirements have been met. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as deferred revenue.

Expenditures are generally recorded when a fund liability is incurred.

The Authority maintains one individual governmental fund known as the General Fund, which accounts for the Authority's operating activity and grant revenue and expenditures.

Budgetary Data

The Authority adopted its budget in August, 2015 for the September 1, 2015 to August 31, 2016 fiscal year. The budget is adopted on the accrual basis.

Cash & Investments

For presentation on the Statement of Net Position and Governmental Fund Balance Sheet, cash is only considered to be cash on hand and demand deposits maintained at the financial institution. The Authority considers all cash held in certificates of deposits as investments.

Accounts Receivable

The Authority considers all accounts receivable to be collectible, and no allowance for doubtful accounts is necessary. If accounts should become uncollectible, the charge will be against operations when uncollectibility is determined.

UPPER COLORADO RIVER AUTHORITY
Notes to the Financial Statements
August 31, 2016

Property, Plant, and Equipment

Property, plant, and equipment are stated at cost. Where cost could not be determined from the available records, estimated historical costs were used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

Depreciation of exhaustible fixed assets is charged as an expense against operations, and accumulated depreciation is reported on the balance sheet. Depreciation of the Robert Lee Reservoir and Facilities has been provided over the lives of the water contracts with the City of Robert Lee using the straight-line method of depreciation. Depreciation of the San Angelo Reservoir water rights has been provided over the life of the contract between the Authority and the U.S. Corps of Engineers using the straight-line method of depreciation. Depreciation of furniture and equipment has been provided over the useful lives using the straight-line method of depreciation. The service lives by type of asset are as follows:

Robert Lee Reservoir and Facilities	25 – 45 years
San Angelo Reservoir Water Rights	50 years
Furniture and Equipment	3 – 10 years

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

NOTE 2 – DEPOSITS AND INVESTMENTS

The Authority's deposits consist of checking accounts and certificates of deposit which were secured at year end by FDIC coverage and by pledged securities held by trustee banks in the names of the depository banks. Although the pledged securities are not in the name of the Authority, the deposits were deemed collateralized under Texas law. The interest-bearing balance at the bank was \$3,480,191 for 2016. The amount of coverage for 2016 at the bank is categorized as follows:

Amount insured by the FDIC	\$ 250,000
Amount collateralized with securities held by the pledging banks agents but not in the Authority's name	4,675,000
Total coverage	\$ 4,925,000

UPPER COLORADO RIVER AUTHORITY

NOTE 3 - PROPERTY, PLANT, AND EQUIPMENT

The following is a summary of the property, plant, and equipment at August 31, 2016:

	<u>Beginning</u>	<u>Additions</u>	<u>Dispositions</u>	<u>Ending</u>
Robert Lee Reservoir and Facilities	\$ 290,524	\$ -	\$ -	\$ 290,524
San Angelo Reservoir Water Rights	860,437	-	-	860,437
Furniture and Equipment	85,584	-	-	85,584
Totals	<u>1,236,545</u>	<u>-</u>	<u>-</u>	<u>1,236,545</u>
Less: Accumulated Depreciation	<u>(1,225,282)</u>	<u>(3,194)</u>	<u>-</u>	<u>(1,228,476)</u>
Property, Plant, and Equipment, Net	<u>\$ 11,263</u>	<u>\$ (3,194)</u>	<u>\$ -</u>	<u>\$ 8,069</u>

NOTE 4 - RETIREMENT/PENSION PLANS

The Authority has adopted a Simple Benefit Plan that matches up to 3% of its eligible employees' gross pay. For the year ended August 31, 2016, contributions to the plan were \$6,628.

NOTE 5- ACCRUED COMPENSATED ABSENCES/LONG-TERM OBLIGATIONS

Any UCRA employee who has accrued a minimum of twelve months of continuous employment with UCRA and who resigns, is dismissed, retires, or otherwise separates from UCRA employment is entitled to be paid a portion of the accrued balance of the employee's annual leave as of the date of separation. This payment shall be computed by multiplying the employee's rate of compensation on the date of separation from UCRA employment by a portion of the total number of hours of the employee's accrued but unused vacation time, based on years of service according to the following schedule.

<u>Years of UCRA Full Time Employment</u>	<u>Maximum Hours to Be Paid at Separation</u>
less than 5 years	40
at least 5 years but less than 10 years	60
at least 10 years but less than 15 years	80
at least 15 years but less than 20 years	100
at least 20 years or more	120

Accumulated accrued compensated absences are reported including applicable payroll taxes owed. As of August 31, 2016 the total accrued compensated absences were \$6,274 and payroll taxes were \$480, for a total of \$6,754. These benefits accrue as they are earned each pay period.

All new additions to accrued compensated absences were used during the fiscal year. The total accrued compensated absences are shown on the balance sheet as due in more than one year

UPPER COLORADO RIVER AUTHORITY
Notes to the Financial Statements
August 31, 2016

because the Authority does not anticipate any extended vacations beyond the maximum accumulation of three weeks and is not expecting any employee resignations or retirements.

NOTE 6 - INVESTMENTS

The Authority is authorized to invest in the following:

1. Obligations of the United States or its agencies,
2. Direct obligations of the State of Texas or its agencies,
3. Obligations guaranteed by the United States or Texas,
4. Obligations of states, agencies, counties, cities, and other political subdivisions of any state that are rated as investment quality and have received a rating not less than A or its equivalent,
5. Certificates of deposits issued by state or national banks domiciled in Texas that are insured by the FDIC or secured by obligations that are described in one (1) through four (4) above.

The Authority's policy is to invest its funds in National and State Banking Associations or Savings and Loan Associations located within the State of Texas or in U.S. Treasury bills. The Authority's investing activities during the current year consisted of certificates of deposit with its approved depository banks. These certificates of deposit were collateralized as explained in Note 2.

NOTE 7 - LONG-TERM WATER CONTRACTS

In 2006, the Authority entered into a lease agreement with the City of Robert Lee for a period of 10 years for an annual payment of \$7,500. On the tenth anniversary of the closing of the contract, the City of Robert Lee agrees to pay \$5,000 to complete the sale of the land, lake, water, and all rights described in the Contract. During the first ten years of this contract, the City of Robert Lee shall be responsible for all maintenance and upkeep of the location, including but not limited to the dam containing the body of water known as Mountain Creek Lake. The Authority will be responsible for all reports and providing all engineering services required by TCEQ.

The Authority has purchased the rights to all water above a certain elevation in the San Angelo Reservoir (O.C. Fisher). Water rights from the San Angelo Reservoir are being furnished to the City of San Angelo under a contract which requires the City to make payments to the Authority equal to the total cost of these rights plus all costs incurred in obtaining them. The Authority collected the final payment from the City on this contract during 1980. The City now has exclusive use of the water rights; however, ownership of these rights remains with the Authority.

UPPER COLORADO RIVER AUTHORITY
Notes to the Financial Statements
August 31, 2016

NOTE 8 - LONG-TERM LEASE AGREEMENT

The Upper Colorado River Authority entered into a long-term lease agreement with the San Angelo Old Town Conservancy for the office building located at 512 Orient with 25 annual payments of \$17,427, and the first payment due on September 1, 2002. The lease agreement runs concurrently with the note receivable from the San Angelo Old Town Conservancy (see note 9). If either party is dissolved, the balance of the lease payments and the note receivable are due.

NOTE 9 - LONG-TERM NOTES RECEIVABLE

The Authority has financed the construction of water system facilities for various cities, water districts, and other water related projects within its boundaries. Prior to 1971, the Authority did not charge interest on any of its loans to these governmental entities. All loans made after 1970 carry an interest rate of 4.25% or 5%. A summary of these notes receivable are presented below:

	Principal Balance
San Angelo Old Town Conservancy - 2002 note, due in annual installments of \$17, 427 including principle and interest at 5% through September 2027.	\$ 144,754
City of Robert Lee - 1976 note, due in monthly installments of \$411, principle only through January, 2016 through December, 2020. This portion of the note is the interest accrued from 1976 through December, 1980 and added to the end to the note.	21,375
City of Robert Lee - 2012 note, due in monthly installments of \$1,332 including principal and interest at 4.25% through September 2022.	85,434
Less current portion of long-term notes receivable.	(27,220)
Total Long-Term Notes Receivable	\$ 224,343

NOTE 10 - ADJUSTMENTS TO RECONCILE GOVERNMENT-WIDE FINANCIAL INFORMATION TO FUND FINANCIAL INFORMATION

The adjustments column of the financial statements represents the property, plant, and equipment capitalized on the government-wide portion of the financial statements and expensed on the fund financial portion of the financial statements.

UPPER COLORADO RIVER AUTHORITY
Notes to the Financial Statements
August 31, 2016

NOTE 11 - WATER SUPPLY AGREEMENT

The Upper Colorado River Authority maintains an agreement with the City of Miles to provide water from O.C. Fisher Reservoir or from the O.H. Ivie Reservoir pipeline in response to the City's need for an additional water supply source. The City shall pay for their usage as billed by the City of San Angelo plus a raw water cost of \$2.8186 per one thousand gallons.

The Upper Colorado River Authority also maintains an agreement with the City of Paint Rock to provide water from O.C. Fisher Reservoir in response to the City's need for an additional domestic water supply source. The City shall pay a minimum annual payment of \$1,500.

In July 2012, the Upper Colorado River Authority authorized a twenty year water purchase contract with the Concho River Water Corporation (CRWC). For the first two years, the Authority agreed to sell treated water to CRWC at a rate of \$2.88 per one thousand gallons. After the first two years, if the price for treated water charged to the Authority by the City of San Angelo is increased, the Authority may adjust the prices it charges to CRWC. However, any adjustment to the price charged to CRWC would not exceed the amount of any increase by the City of San Angelo. In addition, the Authority may increase the raw water component of its price every fifth anniversary of the effect date; provided, however, that any adjustment in the raw water component of the price shall not exceed five percent of the raw water charge for the year preceding the adjustment.

The Authority maintains an agreement with Twin Buttes Water System, Inc. (TBWS) to provide water from O.C. Fisher Reservoir in response to TBWS's need for an additional water supply source. TBWS agrees to pay the Authority for a minimum 5 acre foot of raw water per year at a rate of \$350.00 per acre foot of water. At the option of TBWS, the Authority agrees to sell treated water to TBWS at an additional \$2.25 per one thousand gallons over and above the cost of raw water. In addition, the Authority may increase the price of raw water every 5 years provided any such adjustment shall not exceed five percent when compared to the price of water in the year preceding the adjustment.

Beginning August 01, 2015, the Authority entered into an agreement with Petra Firma to provided Petra Firma water for resale. This agreement allows the Authority to acquire water from resources within their jurisdiction, including but not limited to the City of San Angelo and the United States Army Corps of Engineers. The Authority agrees to deliver up to 145 acre-feet of raw water per year to Petra Firma at a rate of \$350 per acre foot of water. The annual purchase price for raw water shall be paid in no more that 12 monthly installments, with an initial payment of \$14,802.08 being due August 01, 2015. Monthly installments shall be in an amount no less than \$2,114.58 each until Petra Firma installs a meter at their physical location. At the option of Petra Firma, the Authority agrees to sell treated water to Petra Firma at an additional \$2.25 per one thousand gallons over and above the cost of raw water. The Authority may increase the price

UPPER COLORADO RIVER AUTHORITY

Notes to the Financial Statements

August 31, 2016

of water if the price for treated water charged to the Authority by the City of San Angelo is increased. The increase shall be no more than the amount of any increase by the City of San Angelo. In addition, the Authority may increase the price of raw water every 5 years provided any such adjustment shall not exceed five percent when compared to the price of water in the year preceding the adjustment.

NOTE 12 - FUND BALANCE POLICIES

In the fund financial statements, the governmental fund reports fund balance into classifications that comprise a hierarchy based on the extent to which the Authority is bound to honor constraints on the specific purpose for which amounts in those funds can be spent. The classifications of fund balance are Nonspendable, Restricted, Committed, Assigned, and Unassigned.

Nonspendable fund balances include amounts that cannot be spent because it is not in a spendable form, such as prepaid items and long-term receivables or because resources legally or contractually must remain intact.

Restricted fund balances are the portion of fund balance that have externally enforceable limitations on their usage through legislation or limitations imposed by creditors, grantors, laws, and regulations of other governments, or enabling legislation.

Committed fund balances are self-imposed limitations by the highest level of decision making authority, namely, the Board of Directors prior to the end of the reporting period. Board of Director approval is required to commit resources or to rescind the commitment.

Assigned fund balances are limitations imposed by management based on the intended use of the funds. Assigned fund balances for the Authority are authorized by management. Modifications or rescissions of the constraints can also be removed by the same action that limited the funds.

Unassigned fund balances represent the residual net resources in excess of the other classifications. The General Fund is the only fund that can report a positive unassigned fund balance and any governmental fund can report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for specified expenditures, restricted resources are considered spent before unrestricted resources. Within unrestricted resources, committed would be considered spent first (if available), followed by assigned (if available), and then unassigned amounts.

NOTE 13 – EXTRAORDINARY ITEM

The Authority was reviewed by the Sunset Advisory Commission. The Texas Legislature has charged the Commission with reviewing the mission, functions, and performance of the Authority. The Authority was ultimately charged \$55,705 for the review.

NOTE 14 - DATE OF MANAGEMENT'S REVIEW

The Authority has evaluated subsequent events through November 16, 2016, in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.
