

MEETING AGENDA

Implementation Plan (I-Plan) Evaluation

a Total Maximum Daily Load (TMDL) for Dissolved Solids

on Stream Segment 1426, Colorado River below E.V. Spence Reservoir

May 22, 2013

10:00 AM

Ballinger City Hall . 700 Railroad Avenue . Ballinger . Texas

The purpose of the meeting is to re-engage the watershed coordination committee and facilitate participants in a dialogue regarding the existing I-Plan effectiveness and work toward reviewing, updating and revising the Colorado River below E.V. Spence I-Plan as deemed appropriate by the watershed coordination committee. Additionally, representatives of the TCEQ will present information regarding the TMDL and TMDL Implementation process.
